

# Student Resort Logo

(50 pts.)

Soon, you will build a Resort Website using html. Now that you know how to use Photoshop, think about a dream resort you would like to create and now make a logo for your resort...mine was Glamping!

At a minimum, your resort logo should have the following:

<p><b>Step #1: Design</b> Take a moment and think about the logo you would like to create for your resort, and then with a pencil, draw it in the space provided above.</p>	20 pts.
<p><b>Step #2: Layers</b> A minimum of at least 5 layers.</p>	5 pts.
<p><b>Step #3: Clean all background color from the images.</b></p>	5 pts.
<p><b>Step #4: Text</b> Your Logo should have text.</p>	5 pts.
<p><b>Step #5: Drop Shadow</b> There should be at least 1 item in your logo that has a drop shadow.</p>	5 pts.
<p><b>Step #6: Trim (or Crop) Canvas</b> The canvas must be reduced (Trim or Crop!) to match the size of the image.</p>	5 pts.
<p><b>Step #7: Export an Image</b> After you create the image in Photoshop, you must compress it and export it so that it can be used in your resort website.</p>	5 pts.
