"My First Web Page"
Basic HTML - Step-By-Step Guide
(10pts.)

```
<html>

<head>

<title>My First Web Page</title>

</head>

<body>
Welcome. This is my first web page. I am excited!
</body>

</html>
```

A Helpful Hint:
Anytime you finish writing code or make changes to your code, you must always "Save".
If something goes wrong…"Edit/Undo!"

To Save:
> On a PC, Save: File Name: "MyFirstWebPage.html"
> Save as type: Text Document (.txt)
> *(I save it to a folder that I create on the desktop)*

To View Your Web Page
- Open your browser. Now find the file and open it
  (MM/File/Open…)
- You must always <u>refresh</u> your browser after making any changes to a web page.

Now, show me your First Web Page so that I can give you Credit!

On a Mac, in order to save this page created by "Text Edit" as a web page:

- Select 'format' -> 'make plain text'
- Select 'File' -> 'save as'
- Save the file as: 'MyFirstWebPage.html'
- You will be asked if you want to use '.html' ... do that.
