Junk Movie – Campus Tour
"Final Cut Express" – Skill Performance – 130 pts.

Students will be taught each of the skills stated below by recreating a Video Model Piece (Junk Movie – Tour of Campus) developed by the instructor.

1. Film campus & explanations. (10 pts)	Film 4 separate campus scenes and record a brief explanation of each of the scenes with your camcorder.
2. Organizing Files. (10 pts)	In your hard drive or on your desktop, create and organize a folder system that should be self-contained. Title the first folder: "FCExCampusTour." In this folder, create and name three more folders: "photos," "music" & "Video." Place a photo in the 'photo' folder, a music file in the "music" folder and your video clips in the "video" file.
3. System Settings 10pts	Set the System Settings so they are staring at the folder you created above.
4. Import Video / Photo / Music (10 pts)	Import the 'Campus Tour' video with audio explanation, photo and music file into your F.C.Ex project.
5. Sequence & Bins (10 pts)	If one does not exist, create a Sequence and Title it: "FCExCampusTour." Create 2 bins; title one 'photos' and title the other 'music'.
6. Mark In & Mark Out. (10 pts)	Scan the video segment you imported and place a Mark In at the point that you want that clip to begin and Mark out at the point that it should end. Place the play head at the appropriate point and drag the clip onto the "Insert" menu. The video will appear on the timeline. Do this for all four campus scenes.
7. Snapping / Linked / Razor blade. (10 pts)	Using the razorblade tool, slice off the last one second of one of the clips on the timeline and drag it to the very end of your project – following the "The End" title slide. Delete the audio portion but leave the video.
8. Transitions. (10 pts)	Add a transition not only between each campus scene, but a 'fade in' and 'fade out' at the beginning and end of the video as well.
9. Title. (10 pts)	Create a title for the beginning of this film with black background called 'Junk Movie' & 'produced by 'you.' Turn on the 'Wire frame.' Drag the title to the top of the screen. Also, create a title that says "The End" on a black background to be placed at the end of the movie. Create a title for all four campus scenes. At least one of the scenes will be 'Lower 3rd' with a solid color background and another will be 'Lower 3rd' with a transparent or no color behind the text. You can decide how the other two shall appear.
10. Audio Extract. (10 pts)	Insert the clips that have audio explanations of the campus scenes. Delete the video and drag the audio underneath the corresponding campus scene that is being described.
11. Background Music. (10 pts)	Insert a music track onto the timeline. Each time there is an audio explanation of a scene, the music track should fade out and then fade in when the explanation concludes.
12. Insert Picture. (10 pts)	Insert a picture on the timeline just before the "The End" title slide appears. Have it appear for 5 seconds. It should fade in and fade out.
13. Export (10 pts)	Export two files: 1.Quicktime Movie (use default settings) 2.Still Image – jpeg (use Quicktime Conversion)
